ABOUT ME

I'm Muhammad Umar Saddiq, Unity Engineer with ~3 years of experience building high-performance, scalable gameplay systems. Strong expertise in C#, OOP, SOLID principles, state machines, and event-driven architectures. Experienced across single-player, local multiplayer, and networked multiplayer games, including dedicated server integration, authentication, matchmaking, and real-time synchronization.

Proficient with Unity UI/UX, animation systems, and 3D workflows. Hands-on experience integrating SDKs and services such as Firebase, PlayFab, AdMob, AppLovin MAX, Appodeal, and real-time pose detection frameworks (MediaPipe, MoveNet). Known for delivering optimized, maintainable systems and mentoring junior developers. Fast learner who adapts quickly to new tools and technologies.

WORK EXPERIENCE

Unity Developer

Section Soft — July 2024 – Present

- Architect and implement scalable gameplay systems using C# and Unity.
- Optimize performance for mobile and multiplayer environments.
- Integrate backend services (authentication, matchmaking, analytics).
- Collaborate with designers and artists to ship production features.

Unity Trainer

CEGA — December 2025 – Present

- Train students and junior developers in Unity, C#, and game architecture.
- Teach Unity Beginner to Advanced, Scripting, Physics, OOP, SOLID, state machines, and optimization practices.
- Mentor learners through hands-on projects and code reviews.

Freelance Game Tester

uTest — August 2020 – September 2021

- Performed functional and usability testing on mobile, desktop, and web apps.
- Logged reproducible bugs with clear documentation and repro steps.

EDUCATION

Bachelor of Computer Science from City University of Science and Information Technology Peshawar | 2024
